

president for embargoes on essential war materials.

The major measures approved in the work program were lower tariffs through reciprocal trade agreements and the reorganization of the Wisconsin state education departments.

## Bund and Envoy Linked at Inquiry

both aliens and naturalized Americans, who have come here since the World war; and as similar to German minorities in other countries—"for instance, the Sudeten Germans in Czechoslovakia."

"One of the most alarming ways of Nazi propaganda . . ." Metcalfe said, "has swept through the ranks of exchange students to universities."

He asserted that as a result of American students going to Germany and German students coming to this country, "American students are being indoctrinated with the aims of fascism in Germany, both abroad and at home, to the detriment of democratic institutions in America."

### Lectures on Germany

He described two German exchange students who were sent to the University of Missouri as active in Nazi propaganda work.

"On arriving at Columbia, Mo.," he said, "they took up residence in the

finest houses on the campus. The girl was taken into Kappa Kappa Gamma house and the young man was accepted by the Beta Theta Pi.

"During the fall season a course of lectures was given on Nazi Germany. These lectures were conducted by Prof. John B. Wolf and others. It was reported that at this time the two students composed a mailing list for Nazi propaganda.

"The girl, in addition, wrote articles which appeared in the Columbia Missourian. The tenor of her articles was to the effect that foreign newspapers give a distorted picture of conditions in Germany."

Wolf Metcalfe said, "visited Germany last year, and it was reported that this trip was paid for by the German government. Prof. Wolf is an American citizen. Many educators have taken advantage of the generosity of the Nazis."

### One Student Ousted

A German exchange student at Drury college in Springfield, Mo., was dismissed from the school, Metcalfe testified, after he had made a pro-Nazi talk to the Rotary club there.

As an example of propaganda work among American youth, Metcalfe said:

"Take, for instance, the case of the committee on American youth camps in Germany. This committee arranges trips and stays for American youths in Germany.

"On the letterheads of this committee there is found the names of the following persons:

"Dr. Colin Ross, Munich; Prof.

Sprengling of the University of Chicago, Mrs. Du Pont Ruoff, Wilmington, Del.; Leslie Bissel, Munich; Mrs. Elsie von Johnson of Munich, formerly of Galveston Tex

"It should be noted that Dr. Colin Ross is a Nazi propagandist who spends his time between Germany and the United States. He has been one of the outstanding speakers for the German-American bund and has been a writer for the Weckruf, official organ of the bund."
